MASTER OF ERGONOMICS (MErg)

<http://ergonomics.massey.ac.nz>

The Master of Ergonomics degree provides a comprehensive postgraduate research and practitioner led education in the multidisciplinary field of ergonomics, including most of the educational and supervised professional practice requirements for certification with the Board for Certification of New Zealand Ergonomists (BCNZE), which has been benchmarked against the Centre for Registration of European Ergonomists (CREE) scheme (see www.ergonomics.org.nz) and endorsed by the International Ergonomics Association (IEA) (www.iea.cc). Accreditation of the diploma will be sought from the IEA as soon as it establishes a suitable scheme.

The Masterate is a postgraduate qualification directed at professionals with degree (or degree-equivalent) qualifications or who have completed the postgraduate diploma in Ergonomics and who have some practical experience in fields related to ergonomics such as science, technology, engineering, medicine, psychology, physiology, biology, physiotherapy, occupational therapy, occupational health and safety, nursing, safety science, architecture, industrial design and rehabilitation.

Course structure

Schedule A: all papers are compulsory; a total of 120 credits is required.

Paper	Title	Contact module	
128.702	Work Capacity and Performance (15 credits)	July	Palmerston North
128.705	Ergonomics Analysis (30 credits)	April/July	Auckland
128.706	Micro/Macro Ergonomics (30 credits)	July	Palmerston north
128.707	People, Technology and Design (15 credits)	July	Wellington
152.781	Advanced Research Methods (30 credits)	April	Palmerston North

Schedule B: one alternative is compulsory; a total of 120 credits are required.

Alternative	Paper	Title
1	128.801	Masters Thesis (120 credits)
2	128.803	Research Report (60 credits) Optional papers (60 credits)
3	128.803	Research Report (60 credits)
	128.804	Ergonomics Professional Practice (60 credits)
4	128.804	Ergonomics Professional Practice (60 credits) Optional papers (60 credits)

The optional papers are:

128.709	Special Topic in Ergonomics (30 credits)
114.731	Advanced Occupational Safety and Health (30 credits)
114.722	Advanced Organisational Behaviour (30 credits)
190.701	Human Factors for Professional Aviation (30 credits)
